

## Custom Coffee

By Renee Enna

We reveled in the rich aroma and concentrated flavor of Fonté Micro Roaster's signature AA Blend, only to discover we were tasting the decaffeinated version. Their caffeinated coffees are just as impressive. Part of the secret to the Seattle firm's fresh-tasting beans: They're roasted to order and shipped within 24 hours. The decaf is \$10.49 per pound; other varieties range from \$9.50 to \$14.50. It's sold by mail-order only: [www.fontecoffee.com](http://www.fontecoffee.com) or 888-783-6683.
