THE FRESH FACE OF COFFEE (AND TEA)

Since 1992, Fonté Coffee Roaster in Seattle has been providing customers with the freshest tasting coffee. Because the coffee beans are shipped directly to clients immediately after the roasting process, this coffee retains its robust flavor by the time it reaches your coffee grinder. Fonté also imports teas, and recently launched Bahama Bama, a delightfully refreshing iced tea. Fonté teas are blended-to-order and do not contain any added flavorings and chemical preservatives.
